

FELTON FIRE PROTECTION DISTRICT
STANDARD OPERATING PROCEDURES

ARTICLE: II

SOP: 2602

SECTION: 2600

INCIDENT COMMUNICATIONS

SUBJECT:

**RADIO FREQUENCY
CONFIGURATION & RESTRICTIONS**

PURPOSE:

To provide a consistent radio frequency configuration in all District radios and to identify available radio frequencies, their use and restrictions.

SCOPE:

Frequency configuration to be consistent in all radios and restrictions to be adhered to by all personnel.

PROCEDURE:

1. Radio Frequency configuration to be installed in all radios as per the following matrix.
2. Radio frequency restrictions shall be followed as outlined in the following frequency descriptions.
3. Permission from the agency holding the license shall be requested at the time of projected use for the following frequencies:
 - * Green
 - * UCSC
 - * CDF TAC 3,6, 10
 - * CDF 1 and CDF 2
 - * Fish and Game
 - * Santa Clara County Fire Agencies
 - * Monterey County Fire Agencies

All personnel are required to adhere to acceptable radio practice and follow protocols set by the licensing agency and the Federal Communications Commission. (FCC).
